

# PRESSURE AIR STRETCHER PAD

## Pressure Management Mattress Replacement System

*The Natural Form Pressure Air Stretcher Pad provides medical institutions a pressure redistribution surface used during transport, procedures and other temporary patient needs. The Natural Form Pressure Air Stretcher Pad is designed to help reduce the incidence of pressure ulcers and manage tissue loads.*

- Provide optimal pressure redistribution
- Superior comfort and support
- Self-contouring surface
- Management of tissue loads

#### Economical and Safe

- Easily cleaned and sanitized
- Latex free
- Resists microbial/fungal growth
- Minimal maintenance
- Launderable

#### Low-slip Institutional Cover

- Four way stretch, decreases shear
- Durable, tear resistant
- Waterfall flap
- Hypoallergenic
- Stain-resistant
- Anti-static
- Flame retardant
